

## Current VCSS Programs and Services

<p><b>Wraparound</b></p>	<p>Family Vision is part of the SB 163 program Victor Community Support Services (VCSS) is operating as the lead agency for this highly intensive, social services wraparound program.</p>
<p><b>Crisis Services</b></p>	<p>Crisis Services are designed to prevent the psychiatric hospitalization, incarceration, and residential placements of youth. Services include rapid response, assessment of dangerousness, and on-going community-based crisis services as needed.</p>
<p><b>Home-Based Mental Health and Case Management Services</b></p>	<p>VCSS specializes in providing family-based mental health treatment and case management services for a broad array of target populations. This service focuses on children and youth who are at risk of out-of-home placement, in foster care, involved with the Juvenile Justice system, and with more serious emotional disorders for which traditional services are insufficient.</p>
<p><b>Therapeutic Behavior Services (TBS)</b></p>	<p>TBS is provided as a supplemental mental health service to children and youth who are at risk or out-of-home placement.</p>
<p><b>School-Based Mental Health and Case Management</b></p>	<p>School-Based Mental Health and Case Management services may include individual, family, and group therapy as well as day treatment services. VCSS partners with school districts and mental health departments to provide mental health/case management services in school environments. Home-based services are also generally provided to ensure a strong linkage with families and family involvement in the treatment.</p>
<p><b>Outpatient Services</b></p>	<p>Outpatient Services are brief, goal-oriented case management and psychotherapy treatment services targeted to specific populations with partnerships with Social Services, Probation, and Mental Health Departments to provide time-limited office-based therapy and case management services.</p>
<p><b>Transitional Age Youth (TAY) Services</b></p>	<p>Coordinated and comprehensive array of services for TAY clients who meet the focal population criteria and allow clients to selectively utilize services needed to maximize their individual potentials (Resiliency/Recovery Model) and successfully transition into adulthood; services address all identified transition needs in the domains of employment, educational opportunities, living situations, community life, medication, mental health, physical well being, drug and alcohol use, trauma, domestic violence, physical, emotional, and sexual abuse.</p>
<p><b>SART</b></p>	<p>Screening, Assessment, Referral and Treatment Services for 0-5 years. Interventions designed to provide the maximum reduction of mental disability and restoration or maintenance of functioning consistent with the requirements for learning, development, and enhanced self sufficiency.</p>
<p><b>Military Services and Family Support Project</b></p>	<p>This project is a Prevention and Early Intervention (PEI) program for military families. Services consist of two components: 1) In-home screening and assessment for active and recently retired military families; and 2) Case management and referrals for those identified as needing mental health services.</p>
<p><b>Student Assistance Program (SAP)</b></p>	<p>SAP is a Prevention and Early Intervention (PEI) program designed to enhance the well being of students and their families by identifying and reducing stressors or risk factors related to substance abuse, mental health as well as other identified barriers to the student's academic and personal success.</p>

## Current VCSS Programs and Services (Cont.)

<b>Crossroads (NCTI)</b>	Establishes Prevention and Early Intervention (PEI) services in the community designed to address the needs of transitional age youth and their families. Services include increasing the knowledge of social-emotional-behavioral issues and to remove barriers to accessing care.
<b>Community Wholeness and Enrichment (CWE)</b>	Involves short-term therapy sessions (up to one year) for the Prevention and Early Intervention (PEI) of youth (16 to 25) and adults (26 to 59) who experience early onset of mild, moderate to serious mental health issues.
<b>Nurturing Parents</b>	Parents and children attend separate groups that meet concurrently designed to build self-awareness, positive concept/self-esteem and build levels of empathy; teach alternatives to hitting and yelling; enhance family communication and awareness of needs; replace abusive behaviors with nurturing behaviors; promote healthy physical and emotional development; and teach appropriate role and developmental expectations.
<b>Common Sense Parenting</b>	Parents learn, practice, and demonstrate new parenting skills that will enable them to learn to nurture their children's development and combine affection and discipline to decrease their children's negative behaviors and increase their positive behaviors.
<b>SUCCESS 1st</b>	This is an "early wraparound" program whose mission is to provide family-centered, strengths-based, needs-driven services to maintain at-risk children between the ages of 0 to 15 years old in family settings, in schools, and in their communities. Services target children and youth identified as underserved or who have experienced inappropriate service delivery.
<b>Family Resource Center</b>	The focus of the Family Resource Center is the family unit. We offer Nurturing Parents and Nurturing Fathers Parenting groups, a Women's Support Group, Children's Enrichment programs, a Grandparents Support Group (for those raising grandchildren), computer classes in Spanish, English as a second language as well as individual case management and individual and/or family counseling.
<b>Children's Intensive Services</b>	Children's Intensive Services are directed at supporting the family unit by dealing with problems of emotionally disturbed youth at the earliest possible moment in the natural settings of the child and parents. The goal of early intervention provided in the natural setting is to effectively resolve problems at the earliest stage by reducing the risk of out-of-home placement, significant school problems or involvement with the Child Welfare/Justice Systems.
<b>FAST</b>	The Family Assessment and Support Team offers intensive short-term services for stabilization to children and families who are at risk due to recent hospitalization, detention, or have issues of placement stability. Mental health services include family therapy; individual and collateral services; rehabilitation and activities of daily living; and medication support services. Intensive case management may include collaboration with educational settings and adjunctive services such as TBS and PCIT; referral and linkage in home communities to longer term services and supports.
<b>Co-Occurring Treatment Program and Facility</b>	This program is for juvenile justice involved adolescents ages 12-18 suffering from co-occurring disorders (substance abuse and mental health disorders) that can best be served by the provision of highly individualized, comprehensive, compassionate program that is based upon a treatment collaborative, following a harm reduction model, and with all stakeholders involved in the process. Through this process the needs of these adolescents can be met and teens can be empowered, families restored, and lifelong recoveries initiated and sustained.
